**FOR IMMEDIATE RELEASE**

**VIMPELCOM ANNOUNCES FOURTH QUARTER AND AUDITED ANNUAL 2006  
FINANCIAL AND OPERATING RESULTS**

**Moscow and New York (April 12, 2007) - Open Joint Stock Company “Vimpel-Communications” (“VimpelCom” or the “Company”)** (NYSE: VIP), a leading provider of wireless telecommunications services in Russia and the Commonwealth of Independent States (CIS) today announced its financial and operating results for the quarter and year ended December 31, 2006.

Attachments A, B and C present definitions for certain terms used in this press release, the condensed consolidated financial statements of VimpelCom and tables with relevant reconciliations of non-U.S. GAAP financial measures to their most directly comparable U.S. GAAP financial measures. Selected financial and operating results are also reported for each of the countries where VimpelCom was operating as of December 31, 2006.

**Financial and Operating Highlights**

**2006**

- Net operating revenues reached \$4,868.0 million, an increase of 51.6% as compared with 2005.
- OIBDA reached \$2,451.8 million, OIBDA margin was 50.4%, an all-time record for the Company.
- Net income totaled \$811.5 million, an increase of 31.9% as compared with 2005.
- Capital expenditures (excluding acquisitions) totaled \$1,512.1 million.
- Operating cash flow was \$1,971.3 million, leading to the first ever positive free cash flow of \$459.2 million.
- Entry into the markets of Uzbekistan, Georgia and Armenia increased the population in the territories covered by the Company’s license portfolio to 240 million.
- Subscriber base grew to approximately 55.1 million as of December 31, 2006, including 7.0 million in the CIS countries outside of Russia.

**VimpelCom Announces Fourth Quarter And Annual 2006 Financial And Operating Results****Page 2 of 9****The fourth quarter of 2006**

- Net operating revenues reached \$1,451.4 million in the fourth quarter, a year-on-year increase of 59.4% and a quarter-on-quarter increase of 6.8%.
- OIBDA reached \$689.8 million, a year-on-year increase of 64.4%.
- OIBDA margin was 50.3% in Russia and 47.5% for the Company.
- ARPU grew to \$8.9 as compared with \$7.1 and \$8.7 recorded for fourth quarter of 2005 and the third quarter of 2006, respectively. It was the first time ever that VimpelCom reported ARPU growth in the fourth quarter.
- Net income totaled \$198.0 million, a year-on-year increase of 30.4%.
- Operating cash flow was \$540.4 million, a year-on-year increase of 46.3%.
- Market share leadership (49.5%) achieved in Kazakhstan after two full years of operations.

Commenting on today's announcement, Alexander Izosimov, Chief Executive Officer of VimpelCom, said, "2006 was another great year for VimpelCom. The Company continued to show strong revenue growth in excess of 50%, leading to almost \$5 billion in turnover. We achieved a record OIBDA margin of 50.4%. Also, for the first time in its history, VimpelCom recorded positive free cash flow (before acquisitions) in the amount of \$459.2 million.

"During 2006, we successfully dealt with challenges in Russia related to a more demanding competitive landscape and the introduction of a 'calling party pays' regime. We turned around the declining ARPU trend and secured ARPU growth during the last three quarters. It allowed us to maintain high growth rates in revenue and OIBDA in 2006 in spite of a greatly reduced influx of new subscribers. We expect our business in Russia to continue to expand primarily due to the increased usage of our services as living standards improve with the rapid growth of the Russian economy.

"In 2006, we added approximately 10 million new subscribers to reach the figure of 55 million. For the first time our new additions were almost equally split between Russia and the countries of the CIS, with the largest additions from Kazakhstan (1.8 million) where we became the market leader and from Ukraine (1.6 million). In the future, we expect our subscriber growth will come primarily from the countries outside of Russia."

**Key Consolidated Operating Indicators**

	Three months					Year		
	4Q2006	4Q2005	Change, 4Q06/ 4Q05	3Q2006	Change, 4Q06/ 3Q06	2006	2005	Change, Y-on-Y
Subscribers, end of period (EOP)	55,135,700	45,430,300	21.4%	52,381,500	5.3%	55,135,700	45,430,300	21.4%
% of prepaid	96.5%	96.9%	—	96.8%	—	96.5%	96.9%	—
Churn, quarterly	9.0%	8.3%	—	9.8%	—	35.1%	30.4%	—
ARPU (US\$)	8.9	7.1	25.4%	8.7	2.3%	8.0	7.5	6.7%
MOU, (min)	126.5	106.5	18.8%	121.7	3.9%	117.9	101.4	16.3%
SAC, (US\$)	17.4	14.1	23.4%	16.7	4.2%	16.1	13.2	22.0%

High level of churn is typical for predominantly prepaid markets like Russia and the CIS. It becomes more pronounced with the reduction of gross sales in Russia.

In addressing the churn issue, the Company is focused on protecting its revenue base by employing a segmented approach with the emphasis on higher ARPU consumer segments.

In Russia, financial and operating results for the fourth quarter of 2006 confirmed the trends that emerged earlier in the year, namely, stabilizing prices and growth in MOU and ARPU. In fact, growth in MOU in the usually weak fourth quarter resulted in ARPU growth. This allowed the Company to increase its revenue in Russia on a quarter-to-quarter basis even with a substantially reduced subscriber growth rate.

Selling, general and administrative expenses (SG&A) as a percentage of net operating revenues decreased to 31.7% in the fourth quarter of 2006 from 37.1% recorded for the same quarter a year ago. An increase of SG&A in the fourth quarter of 2006 as compared with the third quarter of 2006 was connected to a number of seasonal and one-off factors, such as more intensive marketing activities during the New Year campaign and a 30% stock price appreciation during the fourth quarter of 2006 which led to additional accruals reflected in the fourth quarter in connection with the employee stock option plan.

Notwithstanding these factors, our OIBDA margin of 50.3% reported for the fourth quarter of 2006 was our best ever reported in Russia for the fourth quarter. For the full year 2006 we also reported the highest ever OIBDA margin of 52.3%.

Net income for the fourth quarter of 2006 grew by 45.0% as compared with the same quarter a year ago. The growth rate was less than that of OIBDA as we took a reserve based on the interim results of our litigation with the tax inspectorate. The litigation is connected with the tax audit for 2003-2004. While the litigation is continuing, we reserved \$15.8 million for value added taxes as other losses and \$26.7 million in income tax.

In 2006, VimpelCom's capital expenditures in Russia totaled \$1,049.5 million (excluding acquisitions) which is \$449.3 million less than the same figure in 2005.

**VimpelCom Announces Fourth Quarter And Annual 2006 Financial And Operating Results**  
**Page 5 of 9**

2006 was an exceptionally good year for the Company's operations in Kazakhstan where we actively pursued our strategy of rapid expansion. According to an independent source, we took the lead in subscriber numbers with an estimated market share of 49.5%.

We essentially doubled our net operating revenues and more than doubled OIBDA in 2006. The 2006 OIBDA margin of 40.0% was also higher than in the previous year. Profitability in the fourth quarter of 2006 was adversely affected by seasonal effects (particularly by the decline in MOU) and increased sales, general and administrative expenses mostly related to the year-end marketing and advertising activities and further network and IT systems development.

***VimpelCom Announces Fourth Quarter And Annual 2006 Financial And Operating Results***  
***Page 6 of 9***

In Ukraine, 2006 was the first year that we conducted our own operations, which started in mid-April with the launch of our Beeline brand. Although our business in Ukraine is still relatively small it has become a significant source of new subscribers. During the fourth quarter of 2006 we almost doubled our subscriber base and increased our net operating revenues by 24.3% compared with the third quarter of 2006. At the same time, seasonal effects and a disproportionate price-based response from the incumbents to new entrants resulted in a substantial deterioration of market conditions in Ukraine. Consequently, the Company recorded a decrease in MOU and ARPU and deterioration in its OIBDA and net income. The Company intends to meet the new challenges by focusing on building our subscriber base and growing market share.

We continue to litigate Telenor's three claims challenging the URS acquisition. VimpelCom has prevailed in each court case to date. However, to date in two of the cases Telenor has requested that the Supreme Arbitration Court of Russia consider their appeals and a panel of three judges decided to transfer one of the cases to the Russian Supreme Arbitration Court. The panel cited its disagreement with certain conclusions reached by the lower courts. The panel's view is not binding upon the Supreme Arbitration Court.

Business development in Uzbekistan is still at the initial phase with a penetration rate of approximately 10%. The fourth quarter of 2006 was the first full quarter of our operations after the launch of the Beeline brand in September 2006. Our focus in Uzbekistan is on subscriber growth where the Company achieved good results in the fourth quarter increasing our subscriber base by more than 40%. We continue working on upgrading our networks and services, strengthening the organization, transferring our knowledge and experience, as well as adapting our marketing strategy to the market specifics in Uzbekistan.

As in Uzbekistan, business development in Tajikistan is also at the initial phase with a penetration rate of approximately 12%. The fourth quarter of 2006 was the first full quarter of our operations after the launch of the Beeline brand in September 2006. The Company experienced explosive growth in the fourth quarter increasing its subscriber base by triple-digit numbers and more than doubling its market share. MOU and ARPU also grew by triple-digit numbers. We continue working on developing further our initial success and strengthening our position in Tajikistan.

**VimpelCom Announces Fourth Quarter And Annual 2006 Financial And Operating Results**  
**Page 8 of 9**

VimpelCom completed its acquisition of 90% of Armentel on November 16, 2006 and began to consolidate Armentel's results in its financial reporting from that date. At the time of the acquisition, Armentel included a fixed-line business and the second largest mobile operator in Armenia. Going forward, we will work to enhance Armentel's position in the mobile market and we will continue to operate the fixed-line network, exploring fixed-to-mobile convergence opportunities.

The Company's management will discuss its fourth quarter and annual 2006 results during a conference call and slide presentation on April 12, 2007 at 6:30 pm Moscow time (10:30 am ET in New York). The call and slide presentation may be accessed via webcast at the following URL address <http://www.vimpelcom.com>. The conference call replay and the slide presentation webcast will be available through April 19, 2007 and May 11, 2007, respectively. The slide presentation will also be available for download on VimpelCom's website <http://www.vimpelcom.com>.

The VimpelCom Group includes cellular companies operating in Russia, Kazakhstan, Ukraine, Uzbekistan and Tajikistan, and recently acquired companies in Georgia and Armenia. The VimpelCom Group's cellular license portfolio covers a territory with a population of about 240 million. This includes 77 regions of Russia (136.5 million people, representing 94% of the Russia's population), and the entire territories of Kazakhstan, Ukraine, Uzbekistan, Tajikistan, Georgia, and Armenia. VimpelCom was the first Russian company to list its shares on the New York Stock Exchange ("NYSE"). VimpelCom's ADSs are listed on the NYSE under the symbol "VIP".

*Although the fourth quarter and annual 2006 U.S. GAAP financial statements were approved by the requisite majority of our board, the three directors on our board who were nominated by our shareholder Telenor East Invest AS and who are officers of Telenor or its affiliates voted against approval.*

*This press release contains "forward-looking statements", as the phrase is defined in Section 27A of the Securities Act and Section 21E of the Exchange Act. These statements relate to the Company's strategic and development plans, including network development plans, and developments in the telecommunications markets in which the Company operates. These and other forward-looking statements are based on management's best assessment of the Company's strategic and financial position and of future market conditions and trends. These discussions involve risks and uncertainties. The actual outcome may differ materially from these statements as a result of unforeseen developments from competition, governmental regulation of the telecommunications industries in Russia and the CIS, general political uncertainties in Russia and the CIS and general economic developments in Russia and the CIS, the Company's ability to continue to grow its overall revenues and its subscriber base, continued volatility in the world economy and other factors. As a result of such risks and uncertainties, there can be no assurance that the effects of competition or current or future changes in the political, economic and social environment or current or future regulation of the Russian and CIS telecommunications industries will not have a material adverse effect on the VimpelCom Group. There can be no assurance that the Company will prevail in its litigation with Telenor challenging the URS acquisition or that an adverse decision by the Supreme Arbitration Court or any other court in the Company's litigation with Telenor regarding the URS acquisition will not adversely impact the outcome to VimpelCom in the other pending lawsuits brought by Telenor against the Company challenging the URS acquisition. In addition, there can be no assurances that additional claims will not be made by Telenor or other third parties regarding the Company's acquisition of URS or other matters. In the event a decision unfavorable to the Company becomes binding in any pending or future court cases, including a decision for monetary damages and/or to unwind the URS acquisition, it could have an adverse effect on the Company, its business, its expansion strategy and its financial results. Certain factors that could cause actual results to differ materially from those discussed in any forward-looking statements include the risks described in the Company's Annual Report on Form 20-F for the year ended December 31, 2005 and other public filings made by the Company with the United States Securities and Exchange Commission, which risk factors are incorporated herein by reference. VimpelCom disclaims any obligation to update developments of these risk factors or to announce publicly any revision to any of the forward-looking statements contained in this release, or to make corrections to reflect future events or developments.*

**-Definitions and tables are attached –**

**Attachment A: Definitions**

**Subscriber** is an authorized user of cellular services, using one SIM card (GSM) with one or several selective numbers or one handset (DAMPS) with one selective number. The number of subscribers includes employees using cellular services and excludes guest roamers and users of test SIM cards (GSM) or handsets (DAMPS).

**Churn rate** is defined as the total number of registered subscribers disconnected from our network within a given period of time expressed as a percentage of the midpoint of subscribers in our network at the beginning and end of that period. Contract subscribers are disconnected if they have not paid their bills for 2 months and prepaid subscribers are disconnected 6 months after their services have been blocked. We typically block a prepaid subscriber's service in two cases: (1) their balance drops to \$0 or below, and (2) an account shows no chargeable activity within 6 months. The Company retains the right to change its disconnect policy to reflect changes in business or regulatory environment.

**Active subscribers** are those who in the past three months made a transaction which brought revenue to the Company.

**Prepaid subscribers** are those subscribers who pay for their services in advance.

**OIBDA** is a non-U.S. GAAP financial measure. OIBDA, previously referred to as EBITDA by the Company, is defined as operating income before depreciation and amortization. The Company believes that OIBDA provides useful information to investors because it is an indicator of the strength and performance of our business operations, including our ability to finance capital expenditures, acquisitions and other investments and our ability to incur and service debt. While depreciation and amortization are considered operating costs under U.S. GAAP, these expenses primarily represent the non-cash current period allocation of costs associated with long-lived assets acquired or constructed in prior periods. Our OIBDA calculations are commonly used as bases for some investors, analysts and credit rating agencies to evaluate and compare the periodic and future operating performance and value of companies within the wireless telecommunications industry. OIBDA should not be considered in isolation as an alternative to net income, operating income or any other measure of performance under U.S. GAAP. OIBDA does not include our need to replace our capital equipment over time. Reconciliation of OIBDA to operating income, the most directly comparable U.S. GAAP financial measure, is presented below in the tables section.

**OIBDA margin** is OIBDA expressed as a percentage of total net operating revenues. Reconciliation of OIBDA margin to operating income as a percentage of total net operating revenues, the most directly comparable U.S. GAAP financial measure, is presented below in the tables section.

**Gross margin** is defined as total operating revenues less service costs and cost of handsets and accessories sold.

**Gross margin percentage** is gross margin expressed as a percentage of total operating revenues.

**Each ADS** represents 0.25 of one share of common stock. This ratio was established effective November 22, 2004. Previously each ADS represented 0.75 of one share of common stock.

**ARPU** (Monthly Average Revenue per User), a non-U.S. GAAP financial measure, is calculated for each month in the relevant period by dividing the Company's service revenue during that month, including roaming revenue and interconnect revenue, but excluding revenue from connection fees, sales of handsets and accessories and other non-service revenue, by the average number of the Company's subscribers during the month. Reconciliation of ARPU to service revenues and connection fees, the most directly comparable U.S. GAAP financial measure, is presented below in the tables section. The Company believes that ARPU provides useful information to investors because it is an indicator of the performance of the Company's business operations and assists management in budgeting. The Company also believes that ARPU provides management with useful information concerning usage and acceptance of the Company's services. ARPU should not be viewed in isolation or an alternative to other figures reported under U.S. GAAP.

**ARPU<sub>ACT</sub>** is ARPU calculated with regard to active subscribers.

**MOU** (Monthly Average Minutes of Use per User) is calculated for each month of the relevant period by dividing the total number of minutes of usage for incoming and outgoing calls during that month (excluding guest roamers) by the average number of subscribers during the month.

**MOU<sub>ACT</sub>** is MOU calculated with regard to active subscribers.

---

**SAC** (Average Acquisition Cost Per User), a non-U.S. GAAP financial measure, is calculated as dealers' commissions (for sales and bonus for exclusivity\*), advertising expenses and handset subsidies for the relevant period divided by the number of new subscribers added during the relevant period. Reconciliation of SAC to selling, general and administrative expenses, the most directly comparable U.S. GAAP financial measure, is presented below in the tables section. The Company believes that SAC in growing markets provides useful information to investors because it is an indicator of the performance of the Company's business operations and assists management in budgeting. The Company also believes that SAC assists management in quantifying the incremental costs to acquire a new subscriber. SAC should not be viewed in isolation or as an alternative to other figures reported under U.S. GAAP.

**Market share of subscribers for each relevant area is calculated by dividing the estimated number of our subscribers in Russia, Kazakhstan, Ukraine, Uzbekistan and Tajikistan, respectively, by the total estimated number of subscribers in Russia, Kazakhstan, Ukraine, Uzbekistan and Tajikistan, respectively. Subscriber statistics for these countries are taken from reports published by consulting agencies specializing in the telecommunications industry in Russia and the CIS, reports of other mobile operators, or are estimated by the Company.**

---

\*) *Dealers' bonus for exclusivity which we previously counted as a part of general and administrative expenses is now included in the dealers' commission expense. Historical numbers including SAC were recalculated accordingly.*

## **Presentation of 4Q and Annual 2006 Financial and Operating Results**

April 12, 2007

# Disclaimer

**This presentation contains "forward-looking statements", as the phrase is defined in Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These statements relate, in part, to the Company's strategy and development plans, such as growth in terms of subscribers, ARPU and revenues as well as acquisitions and expansion into new business areas. The forward-looking statements are based on management's best assessment of the Company's strategic and financial position, and future market conditions and trends. These discussions involve risks and uncertainties. The actual outcome may differ materially from these statements as a result of risks and uncertainties relating to developments from competition, governmental regulations of the wireless telecommunications industry, general political uncertainties in Russia and the CIS, general economic developments in Russia and the CIS, and/or litigation with third parties or our shareholders (including Telenor). The actual outcome may also differ materially if the Company is unable to obtain all necessary corporate approvals relating to its business (including approval of funding, specific transactions and payment of dividends), and other factors. There can be no assurance that these risks and uncertainties will not have a material adverse effect on the Company, that the Company will be able to grow or that it will be successful in executing its strategy and development plans. Certain factors that could cause actual results to differ materially from those discussed in any forward-looking statements include the risks described in the Company's Annual Report on Form 20-F for the year ended December 31, 2005 and other public filings made by the Company with the United States Securities and Exchange Commission, which risk factors are incorporated herein by reference. The Company disclaims any obligation to update developments of these risk factors or to announce publicly any revision to any of the forward-looking statements contained in this release, or to make corrections to reflect future events or developments.**

\*LTM OIBDA constitutes the sum of the lines: LTM Operating income and LTM Depreciation and amortization

LTM stands for "last twelve months" to reporting date

\*\* Includes Impairment of long-lived assets

\*\*\* In cases when OIBDA is part of financial ratios it is deemed to be calculated in accordance with the reconciliation tables herein

# Strategy Going Forward

## **Extract maximum value in the Russian business**

- Grow ARPUs and customer loyalty through pricing excellence and new VAS
- Strengthen corporate segment
- Develop strong, situation-specific value propositions in local markets
- Explore consolidation opportunities

## **Grow the business in the CIS**

- Focus on subscriber growth
- Leverage unified business platform developed in Russia
- Pursue acquisitions in remaining markets

## **Capture attractive opportunities to expand into new business areas**

- Opportunistically explore deals outside of the CIS
- Develop business in backbone wholesale and residential broadband
- Build new digital service businesses, including media, mobile TV, payment services, etc.
- Explore new technologies and business platforms

## **Drive operations and investment efficiency**

- Re-balance focus from speed to efficiency and enhance cost transparency as markets mature
- Avoid head-count growth in mature operations
- Drive procurement excellence
- Optimize capex decisions at a granular level and continuously improve marketing spend efficiency

## **Build and sustain strong management capabilities**

- Offer an open and transparent, meritocracy-based environment
- Use a global approach to hiring

- Develop best-in-class individual development and coaching mechanisms
- Ensure competitive, performance-based compensation packages

## Summary

- Continued strong financial performance.
- ARPU turnaround in Russia and expansion into the CIS position the Company well for future growth.
- Strong cash generation allows the Company to pay dividends.
- Broadened strategy outlines our path going forward.

# Questions and Answers

If you would like to ask a question, please press the star key followed by the digit one on your touch-tone telephone.

Due to time constraints, we ask that you limit yourselves to one question and one follow-up question.

If you are using a speakerphone, please make sure your mute button is turned off to allow your signal to reach the equipment.
